Dorene Hartling  
Chief Information Officer  
Communications Security Establishment  
1500 Bronson  
Ottawa, Ontario  
K1G 3Z4

Mrs. Hartling,

The Communications Security Establishment (CSE) Information Technology Security (ITS) program would like to thank you for your request for an assessment of CSE corporate computer systems and networks by the CSE/ITS Computer Network Defence (CND) team.

ITS has approved a CND assessment of the CSE corporate computer systems and networks and looks forward to providing this service. Our Client Relationship Management team will contact you to determine the timeframe and scope of this assessment.

As you know, CSE/ITS has the legislative authority to conduct these activities pursuant to section 273.65 of the National Defence Act. ITS also has rigorous procedures and oversight in place to ensure that only information essential to mitigate threats to, and protect, the corporate computer systems and networks of, CSE will be collected. At all times, the CIO will have control over the traffic until it is transformed into products. In addition, appropriate measures will be taken to protect the privacy of Canadians during the CND assessment.

If there are any issues that arise at an executive level from this point forward, the CSE point of contact is [REDACTED]. For operational issues, the point of contact is [REDACTED].

Thank you for your continued support of the ITS Computer Network Defence service.

Regards,

Peter Laneville  
Deputy Chief, IT Security  
Communication Security Establishment

Canada
